31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	May 20, 2022	
Comments: Protective surfacing was compacted underneath the climbing dome (which requires protective surfacing in accordance with the manufacturers instructions). There are several other play structures in this area, the Inspector asked that the administrator to review the manuals to ensure that adequate protective surfacing is maintained.			
32(1) An operator of a licensed facility shall provide indoor play area materials and equipment that are (a) varied and in sufficient quantity for the number and ages of the children receiving services at the licensed facility.	32(1)(a)	May 20, 2022	
Comments: In a preschool room there was insufficient quantity of art materials - just a small selection of paint daubers and some paper. A variety of art materials must be available to the children for independent selection, such as markers, pencils, pencil crayons, crayons, glue, scissors, pipe cleaners, pompoms, etc...

48(2) An operator of a licensed facility may supply food to a child receiving services at the licensed facility that a parent or guardian of the child brings from the child's home if the food is labelled with the child's name and refrigerated, as required.	48(2)	May 20, 2022	
Comments: Not all lunch bags and water bottles are labelled. All must be labelled as labelling bottles and food provided by parents ensures children receive what has been brought in for them by their parent(s)/guardian.
