General Comments

A renewal inspection occurred today. The children were observed during morning snack, free play, outside play, lunch and nap/quiet time.
A wide variety of open-ended, age-appropriate materials are available in each of the learning environments for this license. The materials were easily accessible for children to interact and engage with at their leisure.

Educators in all the rooms were observed down at the level of the children during their play and assisting them with transitions when needed. Respectful and responsive conversations and interactions were also observed in each of the rooms.

Proper handwashing was observed occurring numerous times during the inspection.
