General Comments

Upon arriving at the facility, the children were still in school. Around 2:45pm, the children and the educators arrived at the facility. The children were encouraged to store their personal belongings, change their shoes and line up to use the upstairs washrooms. Daily attendance was taken, and a head count was completed before going upstairs to use the washroom. The children were supervised at all times while upstairs.

Once back in the gym, some children ate their afternoon snack while others engaged in free play activities such as Legos, reading, and coloring. An educator was observed preparing an arts and crafts activity for the children while another was observed helping the children open their snacks. Later, the children were observed playing football, soccer and basketball in the gym. Others played board games and read in the "cozy corner". An educator was observed seated at a table with a group of children while helping them create stickers with their drawings and coloring sheets.

The educators were attentive to the children and their needs. Educators were observed consoling children when they get hurt while playing. Educators were heard encouraging the children to share play materials and help resolve conflicts. When a child asked to listen to music, the educator put on some "kids bop" music.

Various and sufficient play materials were available to the children. Age-appropriate books were available along with various seating options. The indoor environment was clean and well organized. The cleaning products were locked in a cabinet. The children's personal belongings were properly stored. The parent information board was verified and found to be complete.
