General Comments

The children's learning environments are rich in materials and possibilities for play. Posted documentation within the rooms, on display in the hall/foyer, and in the children's portfolios indicates that the children have been exploring a number of topics of interest and participating in a variety of activities to enhance their learning. The children in room 7 were exceptionally excited to inform the Inspector of all they have been learning about the solar system. Their enthusiasm was remarkable!

The children demonstrated awareness of the daily routine. There was a balance of indoor and outdoor play.

The children were observed to show an interest in books by engaging when being read to, self-reading and creating their own books. Books relating to the topics of interest are displayed in the learning centres.
