<p><b>General Comments</b></p> <p>Everyone was outside playing when I arrived. The school age children were on one side of the hill and the younger children were on the other. After outside, children came in to change and play for a while. The educators in the preschool and 2's room read a story before lunch. Lunch today was brought in at 11:40 and was pizza and chocolate milk. In the preschool room, a web was posted on the wall of bald eagles. The educator loves bald eagles and has pointed them out to the children and the children have begun to ask if some other birds are bald eagles so the educator felt a web was a good opportunity to explore eagles further and expand on this interest.. The school age children were making snowflake posters and drawing throughout the room. Some children were playing with a stuffed puppy, one child playing with a lego set and a few children watching Aladdin. The children play in quieter activities while the younger children sleep. A new educator has been hired. The policy with the Department of Education and Early Childhood Development is that new operators and staff members are to complete a criminal record check/vulnerable sector check within 3 months of employment.</p>
