**General Comments**

Upon my arrival I was screened, my temperature was taken and I was logged in. The center appears to be following COVID guidelines well. Upon my arrival, some of the children were napping while others were playing quietly with different toys. I noted the placement of nap mats and cots; they were placed well, with each child laying head to foot as COVID guidelines outline. The nap mats appeared to be of sufficient thickness. As discussed, please have parents sign permission for their child to sleep in a playpen if the child is over 15 months old.

The educators told me that this morning some of the children went for a walk. The children playing quietly were soon going outside, and they had planted plants and so were going to tend to those as well. After the rest of the children wake from nap, they will have snack and also go outside. The outdoor play space appears to be well maintained. Things seem to be running smoothly.
