Comments: One educator has not completed CPR training			

General Comments
<p>Monitoring visit was performed on this date. Licensing staff arrived as children were engaged in outdoor play. Three- and Four-year-old classrooms were in the gated off paved section of the play area and were using plasma cars, trikes and wagons. Play was child led and educator took children into the gated outdoor play space when children asked. All children were engaged at all times during outdoor play.</p> <p>One classroom had brought the children's water bottles outside, all children are to have access to their water at all times throughout the day, therefore all classrooms are required to bring children's water bottles outside during outdoor play. Sign in sheets and emergency contacts also needs to be brought outside with educators and children to ensure all children are accounted for at all times and that emergency contacts are available. A first aid kit was available in the outdoor play space at the time of the inspection. Latch to outdoor playground is not latching properly and will need to be fixed so children cannot push the gate open on their own,</p> <p>The transition to indoors for lunch was observed and educators reminded children of the routine and expectations. Children enjoyed pizza purchased from a restaurant on this date as appose to their regular packed lunches.</p> <p>Positive behaviour guidance was observed at all times throughout the inspection.</p>
