General Comments
<p>There were two groups of children playing outside and one inside when I arrived for today's visit. The groups of children outside were observed partaking in various activities, they were observed playing on the climbing structure, in the sandbox, with large Lego, hanging out at the table and playing in the mud kitchen. The inside group were observed playing board games, reading, and painting. Educator informed me that the children who were inside when I arrived were already outside. That some wanted to come in for a little break, so she gave the children the option to come with her.</p> <p>Observed a new outside chalk board that was installed in one of the outside play spaces.</p> <p>Educators were observed being attentive and playing with the children during time of inspection. They were also observed providing gentle reminders to the children when needed.</p> <p>All educator and child files that were observed today were in compliance with licensing regulations.</p> <p>The handwashing procedure sign appears to have fallen off the wall in one of the washrooms. Please ensure that it gets reposted next to the sink.</p> <p>The gate closest to the building is not latching properly. Please have it repaired as soon as possible for safety reasons.</p>
