<p>General Comments</p> <p>When I arrived for the monitoring visit, the children were in the outdoor play space. There was an abundance of different invitations to play and areas set up through out the lawn, paved area and forest. All areas had plenty of natural shade. The children enjoyed water play in the water table and in different sized containers. The operator had numerous resources to enhance this experience. There were pots, strainers, cones, dinosaurs and forest animals.</p> <p>The operator displayed strong child guidance practices. She followed their interests, engaged in their imaginative play, spoke in a kind, playful way and was very nurturing.</p> <p>To expand on the photos she was sharing with the families, the operator has created slideshows and compilations of videos.</p> <p>In the indoor environment, there was evidence of the current interest of counting and the alphabet. The operator displays her programming along with documentation in the hallway and it is very well done.</p> <p>The indoor environment is colorful, cozy and organized. Materials, furnishings and the environment is well maintained and the children have learned wonderful clean up skills and take pride in their space and toys.</p> <p>The operator read a story before lunch time and the children enjoyed choosing which book was read first.</p>
