General Comments
<p>Regular monitoring inspection was performed on this date. Children were having a quiet time upon arrival of licensing staff. Children then transitioned to outdoor play and were excited to show what they have been creating in the outdoor play space. The educator and the children have been creating trails and paths through the wooded area, the educator has created a nice visual barrier to the trails and the children were proud to show the progress that has been made. The outdoor play space contained many materials for various play-based learning opportunities.</p> <p>Documentation of learning is being completed and showed children learning about weather, observing the squirrel eating pumpkins and trees throughout the seasons. The operator documents the questions that she asks the children which help to build upon and expand their knowledge and helps to cultivate more curiosity among the children.</p> <p>The indoor play area has been rearranged since the last monitoring visit and has created more open spaces within the room and encourages access to all materials.</p> <p>Positive behaviour guidance was observed at all times.</p>
