Comments: Deficiency is now compliant	32(1)(a)	Jun 30, 2021	Jul 13, 2021

**General Comments**

Visit to facility for a follow-up inspection.  
Ratio was respected during the visit.  
Spoke with operator and administrator, regarding materials available to children in classrooms, small improvements have been made in the infant and preschool rooms order to add materials into classroom environments. Recommended they continue to work on this in order to improve their play zones. Also discussed school aged rooms. Materials need to be accessible and within reach of the children at all times in both groups.

Discussed with operator and administrator their present work with the curriculum consultants. The facility continues to work with this team and are working on a plan to ensure they are meeting curriculum requirements. Regular follow-ups will be made the facility, the licensing team as well as the curriculum team.

The staff now meets the 50% requirement of having the ECE course. An employee from the school aged group with the course will be switched to a preschool group.

Fence door in the outdoor play area was not closing properly during my visit, this was fixed by the operator.

Observations:  
All children were outside upon arrival and for the duration of my visit.

The facility meets requirements for licensing, recommending license for another year.
