General Comments

Morning visit to the establishment for an unexpected monitoring inspection.

- Each napping child has a cot or nap mat that is appropriate for their height
- There is a space of at least 46 cm between rest equipment and all nap equipment is washable and non-absorbent
- Diaper changing station is located one meter or less from a sink
- Diaper changing necessities are stored separately and easy to access for each child that is not potty trained
- Outdoor material is varied and in sufficient quantity for all children present
- Outdoor play area is maintained safe and free of hazards.

For my first inspection I've observed a painting activity in the infants, all groups went outside to play and came in for lunch.
