<p><b>General Comments</b></p> <p>When the children arrived, they went outside to play. Some of the children played soccer while others were making piles of leaves to jump into! It appeared that they were enjoying these activities. I was told that the program spends as much time outside as possible, weather permitting. Today, half the group will go swimming while the other half will do outdoor activities. They use various outdoor areas to play in. They take turns swimming to ensure the reduced ratio for pools is met.</p> <p>During previous COVID restrictions, an additional room was used to open the classroom up for social distancing. The room has now been put back to how it was before those restrictions. The room is set up well and appears welcoming. There are various centers throughout the room, with sufficient materials for the children to play with. During my last visit, there was a lot of children's work on the walls. During this visit, children's work was still displayed but not as much. The educator told me that they are starting fresh and will continue to display more work as the children make it.</p> <p>I noted that all necessary postings are displayed inside the classroom door. Please update the posted information regarding the Quality Assurance Monitor and the Inspector/Investigator.</p> <p>Everything appeared to go well during my visit.</p>
