General Comments
At the time of visit, children were playing outside with water toys. The educator was engaged in play with the children through play and conversation with them.
Licensing staff entered the facility to do an inspection of the physical environment. The environment was put back into it's pre-covid state which is considerably smaller. The environment is clean, organized and set up with many activities and learning centres for the children.
All documentation was easily verified and is kept in a complete and organized manner.
Licensing staff can recommend facility for licensing pending
