

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

Name of operator Katie Bee's Children's Center Inc.	Licence Number 2015987	Inspection Date July 11, 2022	
Facility Name Katie Bee's Children's Center II		Telephone Number (506) 363-5537	
Address 18 616 Highway Keswick Ridge NB E6L 1R6			
Name of Early Learning and Childcare Licensing Staff Joanne Voyer Page		Position Title Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected
24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (f) daily attendance records of the children on forms provided by the Minister.	24(1)(f)	Jul 11, 2022	Jul 11, 2022
Comments: Deficiency is now compliant. Please read comment below regarding tracking attendance.			
28(3) The premises of a licensed facility shall comply with (a) lighting, ventilation and other general health standards under the Public Health Act.	28(3)(a)	Jul 12, 2022	
Comments: Please ensure toilet paper is placed on the holder and the holder is standing in an upright position for sanitary reasons. I would probably suggest installing a holder on the wall instead ,as this type of holder seems to easily upset.			
29 An operator of a licensed facility shall ensure that the traffic area and the outdoor walk-ways of the licensed facility are free from obstructions and hazards.	29	Jul 12, 2022	
Comments: Please read comments below regarding the work truck and work trailer as it is located in the children's play area.			

### General Comments

Monitoring visit performed today.

Upon arrival all children were observed in the outdoor play area. At this time, the Operator is having outdoor renovation work completed. This is all confined to a fenced in play area, however children are inquisitive, so please ensure you can keep the gate locked at all times so children cannot easily open and enter. Though I overheard the construction worker today say 'please close the gate' when a child tried to enter where he was working. I would also request that the work trailer have caution tape around it so children are not running in and around it. Caution tape could be attached to fences on both sides. With appropriate supervision children would be advised not to enter that area of the play space. If construction work is going to take place during operating hours, the work truck should be parked well outside the play area as the driveway is located in the middle of the 2 play spaces.

Administrative records were reviewed and attendance was being recorded, however as noted above there was confusion, as some children were not on the attendance record that were in the classrooms. Be sure to add both first and last names on the record. Educators should always be documenting arrivals and departures even

## General Comments

when leaving for short periods of time. For example if a child leaves with a parent to go to an appointment etc. and when they return, sign them back in on the attendance record. The educator updated the attendance record during my visit.

Children were also observed moving about back and forth between classrooms and cubby areas. Educators should be supervising their group of children at all times and ensure they remain in their own classrooms and cubby areas. I would recommend that cubby area near each classroom be used for that group of children in that classroom. This would alleviate children moving back and forth between rooms and aid in supervision. I would also recommend having eating utensils in each classroom so children have access to their own cutlery.

All children were observed going indoors and washing hands for lunch then settling into some quiet activities after lunch - sand table, loose parts, kitchen centre, magnetic blocks, drawing, watching a movie, reading etc. After an hour, the educator provided lots of transition time and announced to clean up as they were going outdoors for outside play. Children were reminded to fill up their water bottles, put on sunscreen etc. Appropriate child guidance was observed. Educators were observed speaking to children in a kind manner and opening packages for children at lunch.
