General Comments

A renewal inspection was completed today. Children were observed in both indoor and outdoor environments. Materials/props are displayed, organized and labelled to support maintenance and care. Materials were natural, familiar and real life that represent children's home environments. Each area was flexible to accommodate children's emerging interests. There were opportunities for sensory learning, social interactions, language, exploration, manipulation and representation.

All checks were complete. All staff and a random review of files were also observed and complete. Facility is recommended for licensing renewal.
