General Comments
<p>Monitoring inspection completed today. Children were preparing for outdoor play as QA Monitor arrived. The indoor play environment was set up with distinct interest centres that provide children with variety and choice in the materials they wish to engage with.</p> <p>Outdoors, the educator engaged with children, inviting them to participate in a relay game.</p> <p>Discussed with childcare manager surfacing in the outdoor play area. As the ground freezes making mulch difficult to rake, it is recommended that educators use their best judgement in determining the risks to children who may wish to play on the equipment such as swings where the surfacing is depleted.</p>
