General Comments

Monitoring Inspection:

The school-age children were observed participating in a variety of outdoor activities, including gaga ball, four squares, and playing on the stationary equipment. Educators were actively engaged and demonstrated positive, supportive interactions with the children throughout the observation period.

The classroom was prepared in advance of the children's arrival. Documentation is up to date and reflects the children's ongoing interests. A binder titled "Look What's on the Go-Go" has been created to showcase the school-age children's play experiences.

The following records were reviewed: Incident logs, fire drills, monthly review and maintenance plan for all stationary equipment, and daily attendance sheets.
