<p>General Comments</p> <p>COVID-19</p> <p>Inspector was fully screened upon entering the facility. Inspector was able to observe parents drop off upon arrival at the facility. Parent, staff and children wore masks. Inspector confirmed that the infrared thermometers are not to be used for children under the age of 12.</p> <p>Inspector discussed with administrators the importance of having records of household members and contact information ready and available for quick contact tracing in the event of an outbreak. The facility currently has this information in files. The administrator is going to reorganize these logs to have them available for Public Health for quick contact tracing. All COVID-19 logs and documents are visible and accessible at the facility.</p> <p>During renewal inspection a group of children were observed at the washroom without community mask. Since Zone 1 is currently in the orange phase, Inspector clarified that mask must be worn in common area for children over 2 years old and at all time for educators. This was put into place immediately.</p> <p>Positive interaction was observed between children and educators during time of inspection. Purposely planned programming and documentation were visible in all classrooms.</p>
