### General Comments

On the day of my visit the children were playing inside because of the heat wave warning. They can go outside to play for reduced time as long as they are mindful of heat related issues. They are setting up centres and play activities and we brain stormed about more ideas that follow the children's interest. Their art work on canvasses were really well done.

The lights in the room with the hockey table need cleaned, shelving needs to be attached to the walls and the small white cabinet in the bathroom needs replaced.
