Comments: Deficiency is now compliant						

General Comments

A follow up to the renewal inspection occurred today. The children were observed in both inside and outside play.

Discussed with Administrator and emailed Operator that the room divider is to remain closed every day. Three groups are to be formed, based on the size the rooms are measured for. Inspector worked on division of groups with Administrator, to best support the children, educators and operator.

Orders for compliance are completed from renewal inspection and the facility is recommended for license renewal.
