Name of Early Learning and Childcare Licensing Staff Jodi Hennessey		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

A renewal inspection occurred today, September 9, 2025.
Inspector observed the children arriving from school, during indoor play, afternoon snack, transitioning to outside play, outside play and returning to their indoor learning environments.
Children were observed engaged in board games, Lego, Diamond Art, dolls, racing cars, indoor soccer, playdough, creating art, creating dragons, and playing on the school's playground equipment with their peers. Discussed with the Educators planning the environments and documenting and ensuring the documentation is at the school-age program for licensing to observe.
Discussed with Administrator and Educators that if numbers are low, down to fifteen (15) or below then the educators and children can switch rooms. For example, the cafeteria measures for 15 spaces, if the Educators from Group 1 or Group 2 are at or below 15 children they can switch the entire group and educator to a new learning environment for the children, which would be Group 3. This would give the groups opportunities to explore new learning environments with their peers and Educators.
All staff files were reviewed by the Inspector and verified complete and accurate. A random review of twenty five (25) children's files occurred and were verified complete and accurate. All items required for license renewal were verified complete at time of the inspection.
Facility is recommended for license renewal.
