General Comments

On the day of my visit the program was functioning very well. I was properly screened upon entry and all Covid protocols are being followed. The children were having snack when I arrived and in the middle of an on-going science experiment to watch white flowers with dye in their water turn colour. Natalie has set up an Art corner based upon her recent professional development on Process Focused Art based on videos from the work of Susan Stacey. Natalie is an expert on developing her learning stories and her environment to foster the children's growth and imagination. The children start end the mornings outside.

The morning is a preschool program and she has afterschool children in the afternoon.
