General Comments

A Monitoring Inspection was completed this afternoon. Children were observed during outside play. Children were observed playing tag, playing on the equipment, and swinging. Educators were observed communicating with the children, assisting the children in decision making, and providing proper supervision. While the children played outside, QAM observed the inside environment. Several tables were observed, covered in holiday themed tablecloths. Each table had a theme - building, science, art, puzzles, bracelet making, etc. Each table also included books, that related to the themes. Several forms of documentation were observed throughout the facility - children's artwork, rock tumbling graph with questions and observations, canvas paintings, clay creations, and learning stories.
