General Comments

A Monitoring Inspection was completed this afternoon. Children were on their way outside at QAM's arrival. Children were observed playing on the school's brand new playground. QAM also observed the inside environment. The room had well defined learning / activity centres (perler beads, dramatic play (babies, Barbies, Barbie house, play kitchen & store), building area, science area, cozy reading area, and a well stocked arts and crafts area. A conversation was had with Administrator regarding the postings of the most recent Monitoring and Renewal reports, and how both should be easily visible. QAM suggested that facility use two separate plastic sleeves, one for each type of report.
