<p>General Comments</p> <p>Monitoring Inspection:</p> <p>Children engaged in play this morning. Educators have set up an invitation with a large cardboard box for the children to explore. The children were observed using the box for their house. What other materials can be added to expand on this interest? How can this be documented?</p> <p>A variety of materials are displayed throughout the room in a way the invites children to engage in play.</p> <p>The children's open ended art projects are displayed on the bulletin board; educators have added the children's words to their art pieces.</p> <p>Transition times appear to be too long for the children. The children were observed to stand in a line before hand washing and gym time. How can you alleviate some of this waiting time?</p> <p>Next steps: Adding documentation throughout the learning environment. Examples: Photos, webs, learning stories, examples of the children's mark making, etc. Adding labels to the storage bins within the construction area and dramatic play area.</p>
