<p>General Comments</p> <p>A renewal inspection occurred today. Children were observed in their indoor and outdoor environments. The indoor environment was set up with multiple forms of invitations, including "what will your tower look like?". Clear bins with play materials/props were labelled and displayed on children's level to help support maintenance and care. Open-ended materials were present that provide multiple choices, solutions and possibilities for exploration and investigation. Documentation was displayed throughout the physical space that is reflective in children's current interests and work in progress. All checks were complete. All staff files and a random review of children's files were reviewed and complete.</p>
