General Comments
<p>A renewal inspection was conducted on December 9, 2021. Children were observed in both inside and outside play enjoying the newly fallen snow.</p> <p>The educators were observed attentive to the children's needs and were observed speaking positively and kindly to the children.</p> <p>During inspection it was indicated that school-age children from the other license come in the morning to the centre and then are transported to school. School-age children are not on this license and an application for change was sent to the operator.</p> <p>The children's learning is displayed in personal portfolios and the educators indicated they use an App to inform parents of the children's day and happenings at the centre.</p>
