21 The daily activities of a licensed facility shall be purposely planned in advance and documented and shall respond to the capabilities, needs and interests of each child.	21	May 28, 2025	
Comments: Inspector observes that 2 of the 4 classrooms verified did not have purposely planned and documented program for the daily activities. Operator must ensure all educators have the daily activities planned and documented. The inspector recommends contacting the ELC consultant for support in developing detailed plans for 2 of the 4 classrooms.			
9(1) The child-to-staff ratio is one educator for each of the following groups of children of the same age receiving services at a full-time or part-time early learning and childcare centre: (a) three infants or fewer; (b) five children or fewer who are two years of age; (c) eight children or fewer who are three years of age; (d) ten children or fewer who are four years of age or older, but who are not yet attending school; and (e) 15 school-age children or fewer.	9(1)	May 07, 2025	May 07, 2025
Comments: During the renewal inspection, inspector observes 1 educator with 4 infants while the other educator was doing a diaper change in the washroom. Infant ratio is 1:3. Operator must ensure that the ratio is respected at all times in a same age group. Deficiency is now compliant.
