Early Learning and Childcare Facility Inspection Report

Type of Inspection:
Renewal Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

Name of Operator	Inspection Date
686593 NB LTD.	December 09, 2025

Facility Name	Licence Number
Reaching for Rainbows Child Development Centre	2016549

Address	Telephone Number
145 Lakeside Drive Riverview NB E1B 4K7	(506) 389-1442

Type of Facility	Maximum Number of Children	Ages of Children
Full-time Early Learning and Childcare Centre	54	INFANTS PRESCHOOL

ELCC Licensing Staff	Position Title
Stephanie Leger	Inspector

Order for Compliance	Regulation	Date to be corrected	Date corrected
21 The daily activities of a licensed facility shall be purposely planned in advance and documented and shall respond to the capabilities, needs and interests of each child.	21	Dec 31, 2025	
Comments: The inspector verified that daily activities were intentionally planned and documented for each age group. Two of the four groups did not demonstrate consistent purposeful planning and documentation. An email has been sent to the ELC consultant to offer support to these groups in improving daily activities and documentation. The operator must ensure that the daily activities in a licensed facility are intentionally planned in advance, documented, and responsive to the capabilities, needs, and interests of each child.			
27 An operator of a licensed facility shall obtain the written consent of a parent or guardian of a child receiving services at the licensed facility before doing any of the following: (c) permitting the administration of medication in the circumstances set out in section 46.	27(c)	Dec 17, 2025	
Comments: Inspector reviewed 15 child profiles and noted that one profile lists a severe allergy. The profile indicates that the allergy does not require the administration of an EpiPen. An EpiPen is currently stored in the child's classroom for emergency use in case of an allergic reaction. The operator must request an updated child profile and obtain signed parental consent to ensure the file reflects the most current medication information and that a signed parental consent for the use of this medication is placed in the child's file.			
28(2) An operator of a licensed facility shall carry out emergency evacuation and fire drills monthly.	28(2)	Dec 17, 2025	
Comments: Inspector verifies the monthly fire drills and observes that none have been completed for the month of November. Operator is to complete 1 fire drill within the next week and another one at the end of Decembre. An operator of a licensed facility must ensure to carry out emergency evacuation and fire drills monthly.			
33(3) An operator of a licensed facility shall complete a monthly review and maintenance plan on all stationary equipment that includes the following information: (a) the review and repair dates; (b) the action required and the action taken; and (c) the name of the staff member who conducted the review.	33(3)	Dec 17, 2025	

Order for Compliance	Regulation	Date to be corrected	Date corrected
Comments: Inspector verifies the monthly review and maintenance plan for the stationary equipment and observes that none have been completed for the month of November. Operator is to ensure that a monthly review and maintenance plan is completed on all stationary equipment showing: the review and repair dates; the action required and taken; and the name of the staff completing the review to ensure the children's safety when using this equipment. ☐			

General Comments

Inspector is onsite to complete the renewal inspection and observes in the morning within the infant group, educators were taking photos of the children in a Christmas-themed decorated box, preschool children actively listened to a story while others free play with a variety of objects on a table.

Senior toddlers participated in a Christmas arts and crafts activity, with educators actively leading and engaging with the children.

The inspector also observes lunch being served in accordance with the menu provided to parents, followed by quiet story time and nap periods for infants and preschool children. Children who did not nap were offered a choice of quiet activities to do on their nap mats

Discussions with the operator for the children profile led to recommendations that all children's profiles be reviewed and updated to ensure accuracy with all information pertaining to health, particularly for those who have been enrolled since infancy.

The ratio is respected during the renewal inspection.
