Order for Compliance	Regulation	Date to be corrected	Date corrected

<p>General Comments</p> <p>Children were already outside when I arrived for today's visit. Children spent the entirety of today's visit playing outside and enjoying the sunshine.</p> <p>Facility uses the school park and the wooded area next to the facility to play in outside.</p> <p>The first group was observed playing in the small wooded area. After playing there for a bit, they moved to the field to do a relay race with balloons. Once they were finished with their relay race, they relocated to school's outside play space. Educators were observed interacting with the children. Educators were observed ensuring that all children returned to the facility to wash their hands before returning outside to the wooded area to have snack.</p> <p>The second group was observed playing soccer-baseball at the baseball diamond next to the facility. While not all the children wanted to partake in playing, educators brought an outside activity bag with them that had other play materials that the children could use. Once the game was finished, educators brought the children back to the facility to get their belongings, wash their hands and return outside to a shaded area where they could have snack.</p> <p>Positive child guidance observed such a gentle reminders and encouragements. The staff were observed being attentive and engaged with the children at time of visit.</p>
