General Comments
A Monitoring Inspection was completed this morning. It was a quiet morning, with only one child present. Classroom environment was organized and well-defined learning centers were observed. Several forms of documentation were observed throughout the ELC Home. The outside environment had several activities ready for the children. Several hammocks were observed on the trees, a water table was set up, bikes were available, and the bunnies were in a pen, on the front lawn, ready for the children's arrival.
