General Comments

I was screened upon arrival and all necessary signage required by the COVID guidelines is posted. There is ample storage for the children's belongings in the spacious entryway. The storage areas are labelled with the children's names.

The indoor play area appears clean and there are a variety of toys, books, and materials for the children. The children showed me where they do their crafts and where their work is proudly displayed on the wall. The operator provides healthy snacks and meals, and children have an input about what goes on the menu. There is a skating rink made outside, but on the day of my visit, the weather was too warm and the ice was slushy. The operator hopes that it will become a little colder so the children will be able to skate during March Break!

I observed positive child guidance techniques used by the operator. She got down to the children's eye level to talk with them, and she demonstrated gentle reminders and encouragement. She was skilled at using the art of distraction and redirection with the children when necessary.
