Comments: As discussed, one file needs to have an updated check.			

<p>General Comments</p> <p>I was screened upon arrival and the ELC home continues to follow COVID guidelines well. The operator is flexible and varies the program as needed to meet the children's needs and interests, which is in line with the NB curriculum. When I arrived the children were playing inside and when the after school children arrived they all went outside to play. The outdoor area is spacious and the large trees provide adequate shade. There are a variety of materials and activities, both inside and outside, for the children to do. Today the children were gathering small apples and playing with butterflies. They have a spacious 'fort' area in the back yard which the children enjoy playing in as well. I observed positive child guidance by the operator today, such as redirection, gentle reminders, and offering choices.</p> <p>I looked at the child files and signed consents. The child files are well organized and have all necessary information and consents contained in them. A couple of medicare expiry dates will need to be updated. The staff files were also looked at. One file will need to have an updated CRC/VS as soon as possible. All other files are up to date and contain necessary documentation.</p> <p>The ELC home appears to be running well and the children appear to be comfortable in the space and with the operator.</p>
