General Comments

Licensing staff arrived to introduce new Quality Assurance Monitor and perform Monitoring Inspection. Children were playing outside when Licensing Staff arrived. Some children were observed making potions, playing in the outdoor kitchen area, playhouse, and push cars. The outdoor space is clean and organized. Children have the opportunity to safely jump, run and climb in the space. The operator uses the front playground in the morning which provides more shade at that time. A large sunshade was added to the playground which offers more shade. The backyard playground is used in the afternoon. A water table was seen as well as shovels, buckets, and a bin of outdoor toys.

The children have been spending their mornings outside due to the warm temperatures in the afternoon. The transition inside was smooth. All children were observed washing hands and sitting at the table for snack. All children were given a labelled cup of water, cheese and goldfish.

After snack children enjoyed playing music and dancing together. Operator was engaged with the children, singing and dancing with them at their level. As the operator prepared lunch, children happily played with puzzles and in the play kitchen.

The classroom is bright and inviting. There are several visual schedules and reminders seen throughout the centre. By the main door operator has a visual reminder about the importance of sunscreen, drinking water and wearing hats to stay protected during the summer. A "look what we did" board is posted near the front entrance and cubby area. This is a nice way for parents to see pictures of the children and the activities they are doing.
