### General Comments

Licensing Staff arrived at Learn With Me Childcare to perform a Monitoring Inspection. Upon arrival, the children were outside playing. A small group of children were observed playing with toy cars and trucks in the dirt while another was observed playing on the swing set.

Throughout the morning the children were engaged in a variety of activities outside. The children were eager to show Licensing Staff the garden area where they are growing pumpkins, peas and lettuce. A bubble machine and multiple bubble wands were brought out for the children to use. When it was time to go inside to prepare for lunch time, the Operator sang a song, and the children came to line up to go inside. The children appeared familiar with the routine, washing hands and changing wet clothing as they entered the home. The children were observed playing with play doh, play kitchen materials and coloring as the Operator prepared lunch.

Child profiles were reviewed during today's Monitoring Inspection. The files were organized and contained all required documents. Fire drills were posted and are up to date. Only positive child guidance was observed. The Operator was heard singing with the children, encouraging independence and offered words of encouragement. A conversation occurred with the Operator regarding pre-planning. Documentation of learning and evidence of purposeful planning are elements of the curriculum that are to be in place within early learning and childcare facilities. With pre-planning, the structure of a daily routine will allow flexibility based on children's interests and needs.
