| <p>General Comments</p> <p>On the day of this visit, it was evident that the educators are offering an environment that developmentally meets the needs of the children. There was evidence of a pre-planned program demonstrated by webbing, learning stories, crafts, photographs, etc. The environment is well organized and has many learning centres set up in each room.</p> <p>Incident reports are evident. Advised operator to ensure that they are in chronological order and that the reportable and non-reportable incidents are separated.</p> <p>Educators are engaged with children. They were seen at the children's level, speaking to them at eye level and using words to encourage them.</p> <p>A routine has been established and many experiences were offered to the children.</p> <p>Staff files were well organized and complete.</p> |
