Comments: Deficiency is now compliant			

General Comments
On the morning of my visit the children were in the outdoor play space or for a walk.
The educators are using webbing as a source of their planned program. The classrooms are well organized and there are numerous learning invitations set up throughout the center.
The educators and friendly and center is welcoming with many natural items and plants throughout the facility.
The operator plans to redo the outdoor play space late summer or early fall. A change in service application will be submitted when final plan is decided on.
