<p>General Comments</p> <p>On the day of my visit the facility was running smoothly. The educators were engaged with the children and communicating with each other.</p> <p>There has been new staff since my last visit. Files were reviewed and updated. All were in proper order.</p> <p>There is evidence of planned programming through out the facility. Webbing charts are seen in each room, which shows the educators are engaging the children and reflecting on their interests.</p> <p>The large structure in the outdoor play space has been removed which has created more imaginary play while outside. The children enjoy climbing and digging in the large pile of dirt.</p>
