Comments:

**General Comments**

On the day of my visit the roof was in the process of being repaired as there is a leak. The roof is expected to be repaired by Friday.

Due to the repair workers being onsite the outdoor play space is not being used for safety reason. The educators took the children for walks along the trail to explore.

The facility is nicely set up with plenty of natural materials in every room. The large windows allow for natural light to flow through the rooms.

The educators are actively engaged with the children and give appropriate notice when it is time to transition to a new activity.
