General Comments
<ul style="list-style-type: none"> - Visit done at the center for a monitoring inspection. - Ratio was respected during the visit. - Minor incident report is kept in children's files; they are individualized and confidential. - Children's guidance is done in a respectful and positive way. - The outdoor space gives the children lots of opportunities to be creative and too let loose. I recommended that the red and blue slide be removed from the playground until the operator can make sure that the structure is installed according to the manufacturer's instructions. A call will be made to the operator so we can discuss, furthermore. - During the visit the younger children were playing outside, and the afterschool kids were inside. They had lunch and the little ones got ready for their quiet time.
