General Comments
Monitoring Inspection-COVID 19 Recovery Phase. After school children are currently within an alternate room as the floors are being waxed within their regular room. Please ensure that the edge is painted on the leaking window once fixed (as requested during a previous monitoring inspection on Apr.23/19). Children were engaged in interactions with educators and other children during inspection. Observed a healthy lunch being served and children eating. Discussed group logs with educators and administrator. Ensure these are being completed accurately with respect to group established dates and current date.
