Comments: Radiator paint chipping and peeling. To be painted.			

<p><b>General Comments</b></p> <p>Monitoring Inspection:</p> <p>Children engaged in a variety of activities this afternoon. Educators had many purposefully planned invitations set up when the children arrived from school including a sensory/science experiment, painting with feathers, Lego and mark making. The room has a variety of interesting materials within each interest center. Materials are neatly organized and displayed in a way that invites children to engage and interact. Educators have added real life materials to the dramatic play area. Great addition!</p> <p>Many positive interactions were observed between educators and children.</p> <p>It is evident that the educators in this room have been working very hard at implementing a cleaning schedule. Educators clean and sanitize all materials and furniture between the morning preschool program and school age program.</p> <p>Hand washing routines observed. A healthy snack was served today.</p> <p>Discussed hooks for the children's belongings with supervisor as the children's belongings are all hanging together and crowded. How could you make this area work better for children and staff?</p> <p>Next steps:</p>
---

General Comments

Adding descriptions and dates to children's open ended art pieces.
