### General Comments

A renewal inspection occurred today.

Licensing staff observed transitions in all rooms run smoothly. All classrooms were observed going outside, washing hands, during mealtimes, and nap time. The educators were observed having positive interactions with the children. The classroom environments were calm, and all areas of the rooms had materials that were age appropriate, down at the children's level, and open and ready for all children to explore throughout the day.

Documentation in the classroom environments had photos and a description of the learning that occurred. The educators are referencing the New Brunswick Curriculum Framework, and planning what is next to scaffold the children's learning.

The following records were reviewed: Incident logs, fire drills, educator professional learning hours, infant toddler daily sheets, nap sheets, and daily attendance sheets.

All staff files were viewed, and a random review of the children files was completed.

Facility is recommended for licensing
