<p>General Comments</p> <p>Monitoring visit performed. Covid guidelines are followed with signing in on the new daily log sheet. Two large active and busy group of afterschool children and they are respecting the maximum of 15 per bubble. Educator is very viligent with cleaning and sanitizing once toys and other equipment once they have been used. This is a half day for afterschool children, so after their lunch and mainly the older group participate in limited electronic time before moving onto other activities. The younger group were involved with building playdoh creations, building with lego or cutting out snowflakes. Children will have some outdoor time later in the afternoon. They go to the nearby parks and have a routine they follow to ensure groups are contained in their bubble. School age children can also be encouraged to wear masks too, if needed and some do while on the bus. This classroom is 1 large room divided with no common area with exception of cubby space, so really doesnot apply in this situation. The children are practicing social distancing and only 1 child permitted in the cubby space at a time. Educators have been observed providing assistance with activities or providing materials. They are a busy group.</p>
