

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

| General Comments   |
| <p>Monitoring inspection performed during March Break.</p> <p>Covid 19 guidelines are being followed, cleaning practices are followed, screening took place and daily log sheets are being completed. Please relabel your sanitizing/disinfecting solution. TY.</p> <p>Administrative records were reviewed and this information is being tracked and documented. Last fire drill took place in February and they have been performed monthly.</p> <p>A busy group of school age children were involved in a variety of activities upon my arrival and children also listened to a story during my visit. They participated in planning their afternoon activities. Children provided suggestions for a movie and voted on the one they want to watch with popcorn. Children who are not interested in watching a movie were given other options.</p> <p>Appropriate child guidance practices observed - children were given options and the administrator listened to children's cues and intervened when necessary to encourage children to practice cooperative play and problem solving. The Educator also ensures that the use of electronics are balanced with other daily activities as one child wanted to ensure he would have some time to do this during the day. She reassured the child that this would happen.</p> <p>I did review staff file for updated information. TY.</p> |
