General Comments

Licensing Staff arrived at the facility to conduct a Monitoring Inspection. Today was the first day of Summer Camp, so the children were all grouped together. The Educator explained they typically will divide the group into 2 smaller groups to allow for smaller group activities. Upon arrival one table had Play-Doh and accessories for the children to use. Two other tables were set up with paint, paper, paint brushes and sponge rollers. The children were engaged in the activities.

Later in the afternoon the Educator was heard giving verbal reminders before cleaning up for afternoon snack. Tables were sanitized and the group gathered together with an Educator. The children were called to go wash their hands before sitting down for snack time. As they finished eating, lunch boxes were packed away and the group prepared to walk to a nearby park. Reminders to use the washroom and apply sunscreen were heard before the group lined up at the front door. A headcount was observed before the first group left the facility. Shortly after, the second Educator conducted a headcount with the rest of the children before walking to the park to join their peers.

This afternoon Zig Zag, a Playground Program was set up at the park. Some of the children were observed making bracelets and playing soccer with the group. Other children played active games or were observed playing on the swings and climbing structures. The Educators were well spread out while at the playground. Only positive child guidance was observed during today's Monitoring Inspection. The Educators were observed supporting the children with peer conflicts, speaking calmly and at their level.
