General Comments
<p>The QA Monitor observed that ratios were respected during the inspection and staff circulated throughout the room to maintain appropriate supervision.</p> <p>The classroom is arranged with a variety of play materials and equipment, keeping children busy and engaged throughout the afternoon. Educators had several activities organized: a holiday themed rice sensory bin kept 4-5 children's interest for the entirety of the inspection, another table was set up with materials to make an ornament using popsicle sticks and paint, and at the art table several children are making Styrofoam cup snowmen/women. Another group of children sat in the cozy area while one of their friends read them a book.</p>
