General Comments

The Quality Assurance Monitor conducted an on-site monitoring inspection.
Child-to-staff ratios were maintained throughout the visit.

During the inspection, the Quality Assurance Monitor verified the following:
-Child records included all required documentation
-Signed consent forms were present in each child's file
-Daily activities were appropriately documented

While on-site, the Quality Assurance Monitor observed children engaging in free play indoors.

A discussion took place between the operator and Quality Assurance Monitor regarding the consent forms in the children's files. The Quality Assurance Monitor noted that many of the consent forms still referenced the name of the previous daycare center, as several children had transferred from another Wee College location to Wee College Bessborough. The Quality Assurance Monitor suggested updating these forms to reflect Wee College Bessborough. The operator agreed to make the necessary changes and stated that, moving forward, the corporation's name would be included on all consent forms.
