<p><b>General Comments</b></p> <p>The center is located in a school, and the room is set up in a child-centered manner. I observed a variety of interesting materials and activities for the children throughout the room. Planning by the educators is evident, and there is evidence of children's learning in the documentation displayed on the walls and also through their interactions and play. Everything was in compliance during my visit and I recommend for licencing.</p> <p>As a reminder; as discussed, child files will be kept for three years after the child has left the facility, as per regulation.</p>
